

# A Public Information Open House & Presentation About the Main Street Improvements Project

Tuesday--January 23  
Open House 6:30 – 8:00 PM  
with a formal presentation at 7:00 PM  
Youngsville Community House 118 E. Main Street

Although there will be a formal presentation at 7:00 PM, attendees may come any time between 6:30 to 8 PM to learn about the project, ask questions, and provide suggestions to the project designers. The plans will include a preliminary site plan showing improved pavement, curb bulb-outs, on-street parking, crosswalks, ADA accessible sidewalks, as sketched below, a streetscape rendering and a preliminary engineer's opinion of construction cost. Lean about further design steps, coordination with property owners and businesses along Main Street and construction timing.
